Two or More Children	\$850	N/A		

- The annual out-of-pocket maximum applies to all covered services for medically necessary treatment.
- The out-of-pocket maximum applies per covered child under age 19. A family with 2 or more covered children under age 19 will have an aggregate out of pocket maximum of \$850 for all children under age 19 with no child contributing more than the single child MOOP.

- 1. Unlike in-network (INN) providers that have agreed to negotiated fees for services, out-of-network (OON) providers have no contract with Dominion or Dominion's leased dental networks. As such, OON providers set their own fees and Dominion only reimburses the member based on the established INN fee schedule, which is determined by the geographic area where the expenses are incurred. This means that if the OON provider's fee is higher than Dominion's INN fee schedule, the member will be billed the remaining balance to cover the OON provider's fee.
- If course of treatment is to exceed \$300, pre-authorization is required.

Plan will pay either the Participating Dentist's negotiated fee or the Maximum Allowable Charge (subject to benefit coverage percentage) for dental procedures and services as shown below, after any required Annual Deductible.
